TaskHub
Collaborative task management
Sign in
Create account
MVC + API on one shared core
Coordinate projects, tasks, assignments, and conversation in one clean workspace.
TaskHub combines ASP.NET Core MVC, Identity, EF Core, and JWT-protected APIs into a single production-minded learning project. It is structured to feel like a lightweight collaboration tool, not a classroom scaffold.
Create your account
Sign in
Web experience
Server-rendered MVC views
Programmatic access
JWT-secured JSON API
Projects
Owners manage membership, archive workspaces, and keep collaboration scoped correctly.
Tasks
Track title, description, due date, status, priority, assignee, creator, and discussion.
Comments
Give every task a running timeline of decisions, progress, and feedback.
API
Register, log in, issue JWTs, and manage projects and tasks over REST-style endpoints.
